Maximum Marks	2 Marks

S.No.	Parameter	Description
1	Problem Statement (Problem to be solved)	Students and teachers lack a unified platform that combines structured learning, coding practice, certification, and performance analytics in real-time.
2	Idea / Solution Description	LearnHub is a full-stack educational platform enabling students to learn through curated courses, practice coding, take quizzes, and earn certificates. Teachers can create/manage courses, and Admins can monitor platform activities.
3	Novelty / Uniqueness	Role-based dashboards, integrated code compiler, real-time analytics, multi-language support, and dynamic certification generation make it stand out.
4	Social Impact / Customer Satisfaction	Enhances digital learning accessibility, empowers self-paced learners, and simplifies content delivery for educators, improving overall satisfaction.
5	Business Model (Revenue Model)	Freemium model with free courses and optional paid premium content or certifications. Integration with payment gateways like Stripe for monetization.
6	Scalability of the Solution	Can be easily scaled with additional modules like live mentoring, mobile apps, AI-based progress tracking, and integration with schools or ed-tech partners.
